

Water Operator - Preventative Maintenance

People, Place, Prosperity

Working within our Strategic Plan, **Cambridge Connected**, and committing to our values of Integrity, Respect, Inclusiveness and Service, the successful candidate will work together to help the City of Cambridge achieve our vision: A place for people to prosper – alive with opportunity.

Job Profile

There is an opening for Water Operator - *Preventative Maintenance* within the Environmental Services Division, Infrastructure Services Department. Reporting to the Supervisor of Water, duties include operating, maintaining, and performing preventative maintenance on City Water and Wastewater networks.

What you will be doing

- Works within the Water Subdivision, performing repairs and preventative maintenance activities on water distribution system, including main break repairs, service leak repairs, valve exercising, hydrant maintenance and repairs, dead-end flushing, etc.
- Must display comprehensive knowledge of all distribution system infrastructure.
- Fully proficient in performing technical tasks such as utility locating, leak detection, and troubleshooting service calls (i.e. water on/off, low pressure, water quantity/quality concerns).
- Provides labour and driving assistance as required during water service/main repairs.
- Proficient operation of equipment such as backhoe, excavator, loader, tractor, skid steer, dump truck, weigh scale, crew truck, valve turning equipment, along with various hand/power tools (i.e. Quick-cut saw, shovel, rake, wrench, hammer, etc.) is an asset.
- Performs various regulated drinking water sampling, including, bacteriological, pH, lead, nitrite/nitrate, turbidity, metals, and chlorine residual monitoring.
- Understands all Water Standard Operating Procedures, Drinking Water Quality Management System, work-flow management, and other common corporate policies and procedures.
- Can be considered OIC (Lead Hand) on a temporary basis.

Education

High school Grade 12 diploma or equivalent
