Job Summary

Reporting to the Manager of Water and Wastewater Planning, the Project Manager III is responsible for leading Region-wide water and wastewater studies to support growth in Halton Region. Key undertakings that the Project Manager III will lead include complex Municipal Class Environmental Assessment (MCEA) studies, feasibility studies, as well as other water and wastewater related studies to support the Regional water and wastewater network.

Duties & Responsibilities

- Act as Project Manager for Municipal Class Environmental Assessment Studies and water/wastewater servicing strategies.
- Lead the input of water and wastewater programs into the Development Charges Bylaw process.
- Provide technical support and guidance on water and wastewater aspects for Regional projects, Area Servicing Plans, Functional Servicing Reports, and Local Municipal Plans to promote region-wide growth and development.
- Assist with the development of water and wastewater planning procedures/policies/guidelines, and lead the preparation of staff reports and recommendations to Regional Council on matters dealing with water and wastewater planning.
- Build and maintain strong relationships with internal staff and external organizations such as provincial ministries, conservation authorities, and local municipalities through developed and demonstrated professionalism, awareness, political acuity and responsive communications.
- Provide mentorship and technical support to the team in water and wastewater planning processes.
- Represent the Region on external technical studies and committees related to water and wastewater planning.
- Perform other duties as assigned.

Skills & Qualifications

Essential

- Post-secondary education in Engineering and/or Environmental Studies/Sciences, along with Certification in Ontario as a Professional Engineer (P.Eng.) or Certified Engineering Technologist (C.E.T.).
- Minimum of seven (7) years of experience in planning municipal water and wastewater infrastructure.
- Strong understanding of the principles and practices of the Municipal Class Environmental Assessment (Class EA) process.
- Experience in applying water and wastewater industry best practices, standards and guidelines and reviewing development related water and wastewater technical studies.
- Strong project management, strategic planning, organization, analytical, and problem-solving skills.
- Proficiency in computer software, including hydraulic model interpretation for water and wastewater analyses, ArcView, ArcInfo, SAP, and MS Office.
- Excellent oral and written communication skills.
- Hydraulic modelling experience including InfoWorks ICM, InfoWater is beneficial
- Project Management Certification (PMP) is preferred but not required

An equivalent combination of education and experience will be considered.

Working/ Employment Conditions

Working Conditions

- Hybrid work from home/office environment.
- In-person meetings and site visits will be required.
- The successful incumbent must supply their own transportation and will be required to provide a copy of their driver's license by their first day of employment.

Important information about your application:

- In accordance with requirements in Ontario Regulation 191/11 – Integrated Accessibility Standards and the Ontario Human Rights Code, Halton Region will accommodate the needs of individuals with disabilities throughout the recruitment process. If you require accommodation at any stage of the recruitment process, please inform the Talent Acquisition representative of the nature of the accommodation(s) you require.
- Please submit your application online. We will accommodate individual needs for applicants with disabilities and others who are not able to apply online. If you experience any issues with submitting your application, please contact HR Access at 905-825-6000 extension 7700.
- Applications will be accepted until 11:59 p.m. on the deadline date specified on the posting.
- We encourage applications from all qualified individuals; however, only those under consideration will be contacted.
- Personal information collected through the job application process will only be used for the purpose of determining qualifications for employment.
- If selected for an interview, you will be contacted by email and/or phone. Please ensure the contact information provided on your resume is up to date and that you check your email and voicemail regularly.

Halton Region serves more than 624,000 residents throughout Burlington, Halton Hills, Milton and Oakville. We are committed to the delivery of high quality programs and services that make Halton a great place to live and work. We engage great people who contribute to meaningful work that makes a positive difference in our community. At Halton, you are encouraged to grow and succeed in your career and are recognized for your accomplishments and contributions. As an employee, you will be part of a progressive, service focused and award winning employer with a diverse and inclusive work environment.
